

# LIBERATE YOUR AP WITH AVIDXCHANGE

It's time to say goodbye to file cabinets, staplers, and those weird, envelope-moistening sponge-things – all part of paper-based AP.

## HOW WE HELP

As a mid-market leader in automating AP, we use a combination of software and service to cut the clutter and transform the way companies process millions of invoices and payments.

Our products liberate AP teams from all that paperwork by automating the entire invoice-to-pay process.

## INVOICE-TO-PAY

Our invoice-to-pay automation solution transforms the full AP process into an easy electronic experience. Finance teams will have 24/7 access to invoices and payments, improving visibility and control.

## AVIDINVOICE

AvidInvoice, our automated invoice management platform, streamlines the AP process. Suppliers submit invoices in the way that's most convenient for them, and we take it from there. With 24/7 access, everyone on the AP team can track status from anywhere, on any device, adding comments and attachments as they go.

**24/7**

visibility on outstanding invoices and payments

**180+**

accounting system integrations

## AVIDPAY

AvidPay combines software, dedicated service teams and a large supplier network to deliver complete payment automation. To make a payment, just select and approve. We'll send the payments, make sure they're received and allow buyers to track the status every step of the way.

**680,000+**

suppliers paid through the AvidPay network

**\$140 billion**

in transactions processed annually

## PROCURE-TO-PAY

Our Procure-to-Pay solution provides a end-to-end spend management platform and delivers improved visibility and control over expenses with paperless invoicing, automated purchase requests and integrated electronic payments. This solution helps business leaders refine their financial decisions while elevating the value of their ERP.
